PROFESSIONAL SUMMARY

Aspiring MERN Stack Developer with hands-on experience in building modern, responsive, and scalable web applications using React.js, Node.js, Express.js, and MongoDB. Strong expertise in frontend development, UI design, JavaScript, and responsive web design with a focus on creating seamless user experiences. Passionate about developing efficient web solutions, learning modern technologies, and solving real-world problems through clean and optimized code.

EXPERIENCE

Dec '25 - Jan '26
Coimbatore

Full Stack Development Intern (30 days)

PUMO Technovation india private limited

- Assisted in developing full stack web applications by building responsive frontend interfaces, integrating APIs, fixing bugs, and supporting feature implementation to improve application performance.
- Collaborated with developers during project development, gaining hands-on experience in React.js, backend integration, debugging, database connectivity, and real-world software development workflows.

SKILLS

Frontend: HTML, CSS, JavaScript, BootStrap, React.js, Figma(UI&UX), TypeScript(learning)

Backend & DataBase: Node.js, Express.js, java, MongoDB, MY SQL(basic)

Tools: Git & GitHub, Docker(basic), VS code(IDE), Antigravity(IDE), Canva

Soft Skills: Communication, Leadership, Collaborative, Creative thinking, Problem solving

FEATURED PROJECTS

Linkify([github](#))

React.js, Node.js, Express.js, Cloudinary

- Developed Linkify, a cloud-based file sharing platform that simplifies secure file sharing through instant shareable links and QR code generation. Implemented drag-and-drop uploads and cloud storage integration for seamless file access across devices.
- Gaining hands-on experience in file upload handling, API integration, cloud storage management, and responsive UI development while creating a scalable and user-friendly solution.

Lumina AI([github](#))

React.js, Tailwind CSS, Supabase, Gemini API

- Developed Lumina AI, an AI-powered learning platform that converts PDFs, YouTube videos, and raw text into concise summaries, AI-generated quizzes, and learning insights for faster understanding. Implemented AI-based content processing to simplify complex information into interactive learning materials.
- Gaining hands-on experience in AI API integration, authentication systems, database management, and modern frontend development while creating an efficient and interactive learning solution.

Smart Secure Online Voting System ([github](#))

React.js, Node.js, MongoDB, Twilio

- Developed a Smart Secure Online Voting System to address fake voting, limited accessibility, and transparency issues in traditional voting methods. Implemented OTP verification using Twilio, secure authentication, and tamper-proof result handling for a reliable voting experience.
- Leading the project idea and frontend development. Gained hands-on experience in API integration, secure authentication systems, real-time data handling, and responsive UI development.

EDUCATION

B.E Computer Science and Engineering

P.A College of Engineering and Technology

2023-present
Pollachi, TamilNadu

Higher Secondary

Shri Krishna Vidhyalayaa Matric Higher
Secondary School

2022-2023
Pollachi, TamilNadu

ACHIEVEMENTS

- Top 4 finalist of Ideathon '26
- top 20 finalist of Hack IT on '25
- 2nd place in Paper Presentation
- Top 6 finalist of Project Expo-24

Feb 2026, SNSCT, Coimbatore
Oct 2025, KPRIET, Coimbatore
Mar 2025, NIT, Coimbatore
Feb 2024, PACET, Pollachi
