PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer skilled in the MERN Stack (MongoDB, Express.js, React, Node.js), Java, and MySQL, with experience building responsive, scalable, and user-centric web applications. Proficient in leveraging AI-powered tools to streamline development workflows and enhance productivity.

EXPERIENCE

Freelance Software Developer | Self-Employed | 2025 – Present

- Completed 6+ freelance projects, including business websites and custom web applications, managing the development lifecycle from requirements gathering to deployment.
- Delivered responsive and user-focused solutions while collaborating with clients to ensure functionality, quality, and timely project delivery.

Full Stack Development Intern | Dec 2025 - Jan 2026

PUMO Technovation India Private Limited | Coimbatore

- Assisted in developing full stack web applications by building responsive UIs, integrating APIs, fixing bugs, and improving performance.
- Collaborated with the development team to build and maintain full-stack applications while gaining hands-on experience in React.js, backend integration, and database connectivity.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, TypeScript

Backend: Node.js, Express.js, Java

Databases: MongoDB, My SQL

Tools & Platforms: Git, GitHub, Canva, Figma, Docker, Visual Studio Code, Antigravity IDE

Soft Skills: Communication, Leadership, Team Collaboration, Creative Thinking, Problem-Solving

PROJECTS

Linkify([GitHub](#))

Tech Stack: *React.js, Node.js, Express.js, Cloudinary*

Cloud-based file-sharing solution for converting files into secure links and QR codes, enabling instant sharing, centralized storage, and multi-device accessibility.

Lumina AI([GitHub](#))

Tech Stack: *React.js, Supabase, Gemini API*

AI-powered learning platform that transforms PDFs, text into concise summaries and interactive quizzes, helping users reduce study time and improve knowledge retention through automated content analysis.

Smart Secure Online Voting System ([GitHub](#))

Tech Stack: *React.js, Node.js, MongoDB, Twilio*

Secure online voting platform with OTP verification, user authentication, and tamper-resistant vote handling, enhancing election transparency, reducing fraudulent voting, and improving accessibility.

EDUCATION

B.E Computer Science and Engineering

2023-2027

P.A College of Engineering and Technology

ACHIEVEMENTS

- Top 4 Finalist** – Ideathon | SNSCT, Coimbatore **Feb 2026**
- Top 20 Finalist** – Hackathon | KPRIET, Coimbatore **Oct 2025**
- 2nd Place** – Paper Presentation | NIT, Coimbatore **Mar 2025**
- Top 6 Finalist** – Project Expo | PACET, Pollachi **Feb 2024**

CERTIFICATIONS

- Full-Stack Web Development Bootcamp** | UDEMY
- React.js** | UDEMY
- Java Programming** | GREAT LEARNING
- Prompt Engineering** | UDEMY
